II. P-P.M.T seminar for 40 teachers in Mehterlam capital of Laghman province Jan. 10 - 28 1993 without Saturdays

As we mentioned in one of our previous reports the survey for the recruitment of teachers for Jan. 1993 seminar was done during Dec. 1992 seminar in the morning. Also arrangement was made with the director of education about the date and place of the seminar with the list of the recruited teachers.

On Jan. 10 when the P-P.M.T arrived at Mehterlam 40 teachers were present and the pre-limineny work related to the seminar such as materials distribution, pre-seminar evaluation and the registration were completed. The time table of the seminar was given to the participants. On Jan. 11, 1993 the regular classes of the seminar started with the recitation of holy Quran. At this stage Gulam Sadiq the chairman of the seminar explained the objective of the organization in conducting such seminar on the spot. Also copies of the rule and regulation of the seminar were given to the trainees.

Since the teachers had to teach in the morning in their schools, the seminar was in the afternoon everyday except Fridays and Saturdays.

In this seminar 8 subjects were taught. There were 6 teaching hours every day the total of 90 hours during the seminar.

The following Peshawar P.M.T trainers were teaching the related subjects:

1. Haji Sadullah was teaching aid materials (the preparation and use) and general methodology.
2. M. Aman was teaching educational psychology and the teaching methods of language.
3. M. Sadiq was teaching child and youth psychology and the teaching method of Islamiat.
4. Tests, evaluation and the teaching method of mathematics were taught by G. Sadiq.

The 40 teachers were divided into two groups 20 teachers each based on the evaluation results. During the first week most of theoretical side of the training completed. During the second week the P-P.M.T supervisors or trainers applied theory through giving model lessons to the class to convince the teachers about the practicality of the materials taught to them.

To have the participants apply the materials taught each class was divided into 6 groups each group had to give model lessons applying whatever they learned during the first two weeks. Preparing for each model lesson the groups were preparing teaching aid materials for each lesson related to different subjects taught in the primary schools. Toward the end of the seminar the two groups prepared almost 200 sets

of teaching aid materials for different subjects they will be using them in their schools.

The seminar was really useful and went on normally till the end because of the interest of the participants. I (Ahmadi) observed the process of the seminar and asked the teachers about the materials of the seminar and the presentation by the P.M.T supervisors. The teachers appreciated the materials and the hard work of the trainers. During my observation I found out great participation of the teachers in the class activities.

The seminar ended on Thursday Jan. 28, 1993. The teachers were asked to write about what they learned during the seminar.

The teachers stated that before the seminar they were unaware about the principles and its application of educational and children psychology in education. Also about teaching methodology and teaching aid materials which facilitate learning the teachers did not know anything. The teachers wrote that they did not know the technics of students evaluation.

The two groups expressed they learned the above materials in theory and practice and can apply them in their schools.

The graduation ceremony started with the recitation of holy Quran by Qari M. Azam one of the teachers. After the recitation Amir M. Ahmadi explained to them the training programmes of Solidarite Afghanistan SOS/PG*BELGIUM in the refugees camps and inside Afghanistan since its establishment in Peshawar. This kind of training programme inside Afghanistan would continue where needed Ahmadi said. Beside training and certificate enough teaching and teaching aid materials are given to each trainee during training and after training provided by education department of Solidarite Afghanistan Belgium.

After Ahmadi on behalf of the education department of Laghman province Mr. Sayed Wali thanked the donors, the organization (SAB) for the assistance and P-P.M.T supervisors for their hard work. He also promised on behalf of the teachers to put the training at the services of Afghan children.

At the end the certificate alongwith the materials of after training were distributed by Ahmadi and P.M.T supervisors.

A prayer was read for peace in Afghanistan and all over the world and tea was served for the guests.

The list of the trainees, timetable of the seminar, materials distribution are annexed.

Amir M. Ahmadi

P.M.T

Report of seminar by P.M.T inside
Afghanistan

During the month of Jan. 1993 this organization according to the revised annual work plan had to train 40 teachers teaching in the government schools in Laghman province and 40 government headmasters in school management in Kunar province. After the provision of all the pre-requisites of the seminars both seminars started during the first two weeks of the month in both places.

In the following pages the reports of both seminars one after the other are presented in summary form.

I. Seminar for 40 school headmasters in Kunar province by Bajaur P.M.T from Jan. 11, 93 - Jan. 27, 1993

As you know the school system in Afghanistan was destroyed during the 14 years war. In refugees camps proper school management was unknown to the headmasters to run the schools properly. To get ride of the problem a headmasters training manual was developed by SAB in collaboration with EIL. Since the printing of the manual this organization has trained so far 40 headmasters in the refugees camps in Pakistan and 40 headmasters inside Afghanistan in Kunar province.

The survey for the seminar was completed before and the authorities in Kunar province were informed of the date of the seminar.

On Jan. 11, 1993 five Bajaur P.M.T supervisors with all the teaching and teaching aid materials needed in the seminar left Bajaur sub-office for Assadabad the capital of Kunar province.

The main objective of the organization to give such seminar is to train the headmasters in such materials to improve school management in the primary schools which will result in improving the education of primary school children.

For the fulfillment of the above objective we included the following topic in the programme of training headmasters:

A. Administrative side:

A headmaster in any school system is responsible to prepare the ground for better education. Unless the administrative side in the schools is well functioning we will not be able to get good results from poor schooling. Therefore we included those topics in the programme in this part which were related to school administration and management such as:

- The importance of school administration
- School administration, supervision and their importance
- School regulation and headmasters
- Rules and regulation related to academic side of the school
- School meetings and school timetable
- Duties of school personnel
- School organization
- Examination rules
- Funding sources
- Arrangement of files
- Supervision and its kinds
- Supervision and teachers guidance
- Discipline
- Planning
- Educational planning
- Classroom management and its effective factors
- Importance of schedule
- Praise and motivation of sub-ordinates
- Motivation and its Kinds
- Teachers and students' motivation for educational activities
- The creation of motivation and its effect

Up to this point we were discussing mostly school administration and management which is pre-requisite for better teaching - learning to take place. But we mentioned that the headmasters beside administrative duties have to guide the teachers and students too. To guide the teachers and students the headmasters need training in area related to teaching and learning in the school. To fulfill the above goal we included the following topics in the programme:

- The principles of child psychology and the implication in education
- The principles of education psychology
- Teaching methodology
- Teaching aid materials
- Educational evaluation

All the materials to be taught were divided so that each supervisor had chance to teach the part according to his interest and skill.

The following P.M.T supervisors participated:

1. Abadul Haq
2. Gulam Ali
3. Hadayatullah
4. Sayed Ahmad
5. Enayatullah

Gulam Ali an experience headmaster was supervising the whole process of the seminar related to administrative part specially applying different forms and related files.

The mentioned seminar was the first seminar for the headmasters inside Afghanistan and the second seminar for Bajaur P.M.T to apply. During the first seminar in Dir the materials of headmasters training were applied for the first time. The experiences gained and the corrected materials were used properly in Kunar province inside Afghanistan, and the headmasters of the school showed great interest during the seminar.

During monitoring the seminar I found the hard work of the participants of the seminar to get as much as possible from the seminar. The education authorities in Kunar province also appreciated such training, because most of their staff lack administrative and management training related to schools. The process of the seminar was in the morning and everyday there were 6 periods of teaching with 20 minutes tea break. Teaching load for each subjects was in the following order:

1. School administration and management 6 hours per week
2. Educational evaluation 3 hours per week
3. Teaching aid materials 3 hours per week
4. To guide and supervise teaching method of Islamiat, language and mathematics 12 hours per week
5. Educational psychology 4 hours per week
6. Knowing the child 4 hours per week

All the forms needed in the schools and its application in the school were shown to the participants practically. School regulation related to students and school staff were discussed during the seminar such as teaching load, number of students in the class, absence, and schooling age in different locality (urbam and rural). The headmasters became familiar in using the observation sheets to guide the teachers in the implementation of daily lessons, because the headmasters were asked to teach in the

class. After ward according to the observation sheet the strong points and weak points were discussed by the headmasters under the guidance of P.M.T supervisors. The seminar ended on Jan. 27, 1993 with a sample graduation ceremony. The ceremony started with the recitation of verses from holy Quran by one of the participants of the seminar. After which the head of Kunar province secretariat Mr. Shahidullah and Mr. Qari Dean Mohammad the director of education in their speeches appreciated the assistance of Solidarite Afghanistan SOS/PG*BELGIUM in the province in the field of education. Both of them expressed their readiness to cooperate with SAB in the implementation of the related training programmes.

At the end the certificates were distributed by SAB P.M.T supervisors along with the materials to be taken to the schools. 38 headmasters were able to get the certificates. A simple tea and cookies were served to the guests and the organization offered 38 trained headmasters to the community.

The list of the trained headmasters, timetable of the seminar, material distribution are annexed.
